The diagram shows a central rectangular box with a smaller white square inside. Four thick black arrows point outwards from the white square, representing forces: up, down, left, and right. The box is surrounded by a larger shaded rectangle. Four external forces are applied to the box, each represented by a thick black arrow and a label: 120I (up), 120J (down), 39E (left), and 39J (right). The labels 39E and 39J are crossed out with an 'X'.

The diagram shows a square block with a rectangular hole. A horizontal force of $40k$ is applied to the left face, and a vertical force of 39.5 is applied downwards at the bottom-left corner of the hole. Internal stress arrows are shown within the block and the hole.
